

TRANSFORM YOUR PRACTICE FROM FILM TO DIGITAL.

Make More Room for Care
in Your Veterinary Practice.

BIG PERFORMANCE FOR SMALLER FACILITIES.

If you're like many small practices or clinics, you know the tremendous value that in-house digital imaging can deliver.

But the high cost of entry for digital may be holding you back – not to mention the limited floor space you have for installation of such a system.

Meet the Vita Flex CR System – designed specifically for facilities like yours. It delivers high-quality digital images to speed workflow and improve patient care. Compact design makes it a great fit for smaller spaces. And, its affordable price tag makes it possible on nearly any budget.

TWO WAYS TO SAVE SPACE – FlexFit

Vita Flex's benefits for small offices don't end with its compact footprint. You can find the fit that's best for you. Vita Flex fits on a tabletop, desktop, sitting on the floor or in the back of a van. You can position it in a traditional horizontal configuration, or set it up vertically if that's a better fit for your space. Now that's flexibility.

CUSTOM-DESIGNED WITH YOUR NEEDS IN MIND.

Why pay for capabilities you don't need and won't use? Large, complicated digital-imaging systems are overkill for your facility's needs. Vita Flex CR delivers precisely – and only – the capabilities you require. Just consider these advantages:
