

TigerView Software for Podiatrists

- DICOM 3.0, HL7 interface, modality worklist and multiple viewing stations
- Unmatched easy-to-use user interface
- Seamlessly link or bridge from your EMR/EHS clinical and management systems
- Quickly and easily access all digital image files and share them with colleagues and patients
- Multiple hardware manufacturer integration
- Podiatry specific tools and measurements including Metatarsal Angle and Hallux Abductus Angle
- TigerView provides specific podiatric labeling criteria that allows you to quickly find the images you want to view
- Record audio notes and text annotations with images
- CD burning software with CD viewer built in
- Customizable report generation
- Complete turn-key solution: set-up, staff training, and operation of digital x-ray has never been easier

TigerView

TigerView allows you to uniquely manage all podiatry x-ray and wound management images seamlessly with one database.

SPECIFICATIONS

TigerView Functionality

DICOM storage commit	Highly reliable storage	User customizable filters
DICOM modality worklist	View images from any web-enabled PC with TigerView Cloud	Ability to edit patient/study information
DICOM send & receive	Web-enabled viewer	Multiple image viewing
View DICOM header information	Touchscreen friendly	Full set of editable measurements & annotation tools
DICOM CD/DVD import and archival	Dual monitor friendly	Cross reference lines
DICOM CD/DVD burn functionality	Easy to filter, search and sort modality worklist	Worklist search
Lossless image compression	Off-site back-up options	

PACS Viewer – Modality Support

Computed Radiography (CR)	Video clips from fluoroscopes	High-res digital cameras
Direct Digital Radiography (DR)	Digitized x-ray film	
Ultrasound (US)	Color digital camera images for morphing and wound care progression	

EMR or Charting Bridging – Easy Link from your EMR

Proprietary bridges	HL7	TigerLink
DICOM modality worklists		

TigerView Cloud

Upload images from any device	Quickly view your images from anywhere	Automatic backup of your images
Data safely stored off-site in the “cloud”	Easily transfer images among providers	Automatic software updates
One database solution for multiple offices
